

Acron Capability Engineering CEO Invited to Present to World Food Program Disaster Response Workshop

April 8, 2008, Ottawa, Canada: John Nicol CEO of Acron Capability Engineering was recently invited to make a presentation and facilitate part of the World Food Bank's regional Disaster Preparedness and Recovery Workshop held in mid March in Bangkok, Thailand. John spoke on the subject of Communities of Practice and advances in non-text based learning.

Commenting on his participation, John said: "Simulation and non-text based learning can be applied to many situations and disaster relief including food distribution is a good case in point. I believe the delegates gained new insight into how simulation technologies and applications can help their humanitarian efforts. I am grateful for the opportunity to have Acron involved in the workshop."

The World Food Programme (WFP) is the food aid branch of the United Nations and the world's largest humanitarian. WFP provides food, on average, to 90 million people per year, 58 million of whom are children. From its headquarters in Rome and more than 80 country offices around the world, WFP works to help people who are unable to produce or obtain enough food for themselves and their families.

About Acron

Acron specializes in Information Exchange applications for Command and Control systems and develops Knowledge Management, Modeling, Simulation and Games technology in Canada and overseas.

The Acron InfoX Information Exchange Architecture allows government and non-Government organizations to communicate and exchange information collaboratively. The company provides a full range of services in the three main areas of Live, Virtual and Constructive Simulation and Serious Games. Acron has technical staff that constructs stand-alone or distributed modeling and simulation assets using our own tools, or other commercial tools and can also provide management staff for projects at many different levels. The company has facilities in Ottawa (Ontario), Gatineau (Quebec) and Fredericton, (New Brunswick.) www.acroneng.com
